**STUN GUNS** use high voltage and low amperage to temporarily disable an attacker for several minutes. The stun gun does not rely on pain for results. The energy stored in the gun is dumped into the attacker's muscles causing them to do a great deal of work rapidly. This rapid work cycle instantly depletes the attacker's blood sugar by converting it to lactic acid. In short, he is unable to produce energy for his muscles, and his body is unable to function properly. The stun gun also interrupts the tiny neurological impulses that control and direct voluntary muscle movement. When the attacker's neuromuscular system is overwhelmed and controlled by the stun gun he loses his balance. Should the attacker be touching you, the current will NOT pass to your body!

**STUN MASTER®** has been a leading brand in the stun gun industry since 1994 making it a true icon in the world of self-defense. This type of success for so many years in a competitive field is the finest recommendation any product could be given. The Stun Master stun guns on this page have safety switches and wrist straps. They use two 9-volt Energizer Eveready Alkaline batteries (except for the 100,000 volt which uses one). Stun Master stun guns have a Lifetime Warranty.

We recommend the **9-VOLT ENERGIZER EVEREADY ALKALINE BATTERY** for the Stun Master stun guns. Other batteries will not work as well. Warranty will only be honored if Energizer Eveready Batteries are used. You do not have to purchase them from us, but you do have to use them. **B-1 \$3.00**

**DOUBLE TROUBLE** is like having two stun guns in one. TWICE the contact -- **totaling 1.2 million volts** -- TWICE the stopping power! More effective than most stun guns because of the space between the contacts. The greater the space, the greater the effect. Most stun guns only have 1.5 inches. The Double Trouble has 5 inches between contacts. Rubber Coated Soft Contour Grip to make it easy to hold and hang on to. Safety switch is on the top with a red LED on/off indicator to let you know if the stun gun is ready to fire. Uses two CR123A batteries (included). Comes with a **FREE leather belt holster** (\$15.00 Value) designed to allow quick access and deployment of this amazing stun weapon. This patented device has a soft rubber skin and is sized to accommodate all hand sizes. A safety switch is built in and accessible to your thumb. **NIR MAMAN** (pronounced Near) is a former Israeli special forces commando and top hand-to-hand combat instructor. His long-range reconnaissance unit (the feared Sayeret Golani) roamed deep into enemy territory, fighting, capturing and eliminating terrorists and insurgents. Usually, there were only 4 men in his unit. Alone, without back-up, miles from safety - and with less than one-fourth the training our own Spec Op soldiers receive - these men faced constant, unrelenting and vicious counter-guerilla combat. These men did not have the luxury of long training. Israel has a limited population, and the men who join the Special Forces must get up to speed FASTER than any other soldier in the world. ISRAELI CONNECTION - This is a HUGE 4-tape package -- the first 2 life-changing videos are on hand-to-hand fighting (including moves no one has ever seen before outside the Israeli Spec Op world!), the third video is a stunning ground fighting

**JACOV BRESSLER** Jacob began his training at age 16 with an Argentinean master instructor who is a direct disciple of legendary Okinawa Karate master Gogen Yamaguchi's Son. That style - Goju Ryu Karate - is still one of the most "hard core" martial art styles in the world today. There are two DVD's in this set. First, Jacob reveals his most important "single lesson to street level fighting mastery" material. This is the "speed-learning" shortcut hand-to-hand tactics he teaches cops and soldiers who don't have time for practice. Second, he does the BEST job on teaching civilians about improvised weapons. (This is a SPECIAL ART, and one that Jacob perfected long ago, during the days he sometimes HAD to fashion weapons out of thin air to survive.) Last, Jacob insisted on providing an extra lesson showing you how to use these simple new skills in REAL situations. It was expensive, setting up these real-life scenarios. But oh my God, it was worth it. Just watching these lessons will give you access to stunning new (and very

simple) fighting skills that will make you almost INVULNERABLE in any real-world fight. Best part: You can learn it super-fast. Run Time: 3 Hrs 27 Min **ITEM # DVD-FASTFURIOUS \$69.00**

The **TASER®** is a self-defense electronic control device. It has almost 100% effectiveness rating. It combines the injury reducing benefits of traditional stun technology with a quantum leap in stopping power via new Electro-Muscular Disruption (EMD) technology. In police studies, the TASER has a higher instant incapacitation rate than a 9mm handgun. The TASER uses a replaceable cartridge, containing compressed nitrogen, to deploy two small probes that are attached to the TASER by insulated conductive wires with a maximum length of 15 feet. 50,000 volts travels over the wires and over-rides the central nervous system providing incredible takedown power. The energy can penetrate up to two cumulative inches of clothing. **SAFETY** -- The TASER can stop a threat up to 15 feet away, allowing you a safe distance to protect yourself and your family from an attacker. If a close quarter defense is warranted, the TASER doubles as a contact stun device to repel someone as a powerful and unexpected backup capability. TASER cartridges also have a unique serial number and are equipped with an Anti-Felon Identification system, which discharges 20-30 serialized paper tags when deployed. Law enforcement can later retrieve this confetti from the scene and contact TASER International to get the name of the owner of the TASER device, allowing police to track any potential misuse. **LIFETIME REPLACEMENT GUARANTEE**
